Certified Information Systems Security Professional

An (ISC)² Certification

Overview:

CISSP is The World's Premier Cybersecurity Certification

Earning the CISSP proves you have what it takes to effectively design, implement and manage a best-inclass cybersecurity program. With a CISSP, you validate your expertise and become an (ISC)² member, unlocking a broad array of exclusive resources, educational tools, and peer-to-peer networking opportunities.

This course provides you a deep technical and managerial knowledge and experience to effectively design, engineer, and manage the overall security posture of your organization.

Benefits:

A CISSP certification validates your skills in IT security. Cybersecurity Ventures predicts a total of 3.5 million Cyber Security jobs by 2021. The global Cyber Security market is expected to reach USD \$282.3 Billion by 2024, growing at a rate of 11.1-percent annually.

CISSP key domains:

- Domain 1. Security and Risk Management
- Domain 2. Asset Security
- Domain 3. Security Architecture and Engineering
- Domain 4. Communication and Network Security
- Domain 5. Identity and Access Management (IAM)
- Domain 6. Security Assessment and Testing
- Domain 7. Security Operations
- Domain 8. Software Development Security
