■ Best Rated Experts & Certified Trainers in Egypt.

■ Official Training Hours, Practice Labs, Hands-on Learning.

■ CLS Training Classrooms are designed with High Edge PCs and Training Facilities.

■ Return on Training Investment is Guaranteed to boost performance.

Overview:

COBIT® provides the guidance and means to build and sustain a best-fit governance system that aligns with major related standards, frameworks and regulations.

The COBIT framework is also very relevant to the modern enterprise—bringing structure to decision making and assisting in the creation of a more agile governance system.

COBIT provides the latest thinking in Enterprise Governance of Information & Technology (EGIT) and is a comprehensive repository of guidance, tools, models and resources to help business leaders achieve their objectives for effective I&T governance.

The COBIT Foundation Certificate Exam ensures that you understand:

- How to align IT goals with strategic business objectives using tools designed to give governance a wider perspective, and practitioners more flexibility.
- The value derived from IT, necessary resources, and potential risks in the process of building a mature relationship between the business and IT.
- The different types of IT governance frameworks such as ITIL, NIST etc., including the benefits of each and how they work.

At the conclusion of this course, attendees will understand:

- Recognize the context, benefits and key reasons COBIT is used as an information and technology governance framework.
- Explain the key attributes of the COBIT framework
- Key attributes
- Product family
- Alignment with industry frameworks
- Compare the COBIT principles for governance system framework.
- Describe the components of a governance system:
- Governance and management objectives (see 5 below)
- Components of the governance system
- Focus areas
- Design factors
- Goals cascade
- Describe the elements of governance and management objectives.
- Differentiate COBIT based performance management using maturity and capability perspectives.
- Discover how to design a tailored governance system using COBIT.
- Explain the key points of the COBIT business case.
- Describe the relationships between the COBIT Design and Implementation Guides.
- Prepare for the COBIT 2019 Foundation exam
