- Risk management
- Quality
- Change Control and Configuration Management
- PRINCE2 in practice

• Overview:

The goal of any project manager is to deliver projects on time, to scope and within budget. PRINCE2 guides you through the stages of a project's lifecycle, bringing structure and a common language to your projects. It represents the "how to" of project management: it is flexible, scalable, and can be tailored to meet your specific requirements.

PRINCE2 is based upon the tried and tested experience of project management practitioners around the world, and provides the themes, principles, and processes to deliver successful projects of any size and complexity.

- globally recognized certification
- 1,000,000+ professionals
- a range of roles and sectors
- 18 languages
- 150+ countries.

PRINCE2 Foundation

- PRINCE2 Foundation provides the theoretical knowledge of how to plan, manage and deliver projects from start to finish. A pass at Foundation level is a prerequisite for the Practitioner certification.

PRINCE2 Practitioner

- PRINCE2 Practitioner extends the knowledge acquired at Foundation level to enable you to apply and tailor the method in a live working environment.

• Audience Profile :

This course would benefit all members in a project team (administrators, coordinators, managers), practising project managers and programme managers.

It is also relevant to other key staff involved in the design, development and delivery of projects, including: Project Board members (e.g. Senior Responsible Owners), Team Managers (e.g. Product Delivery Managers), Project Assurance (e.g. Business Change Analysts), Project Support (e.g. Project and Programme Office personnel) and operational line managers or staff.

• Prerequisites:

There is no formal requirement for attending this course, although it would be beneficial to the delegates to have some understanding of project management.
