

Scaled Agile Certification - (SAFe®)

Why Scaled Agile Certification - (SAFe®)?

Agile is a mindset, a way of working; Scrum is a framework based on Agile values and principles, while SAFe® is a scaling framework that implements Scrum at an enterprise level.

Why SAFe?

It's the Framework of Choice for Leading Organizations
More than 1,000,000 practitioners and 20,000 enterprises worldwide in nearly every industry trust the Scaled Agile Framework® (SAFe®). Gartner names SAFe the #1 most considered and adopted framework for scaling Agile.

SAFe has shown double-digit improvements in time-to-market, productivity, quality, and employee engagement.

Gartner has found SAFe to be the #1 most considered and adopted framework for scaling agile.

• Overview:

SAFe® is the world-renowned framework for scaling Agile over the business, and various world's largest organisations use it. SAFe® supports and makes more agile time-to-market, exciting improvements in productivity and quality, and growth in employee engagement. Leading SAFe® uses the most current Lean-Agile methodology- SAFe® 5.1. It combines a Lean mindset and SAFe® to form a highly effective methodology that is adaptable to any organisation, regardless of complexity, structural set-up, or size. This comprehensive and fully certified training furnishes individuals with the skills to comfortably lead the utilisation of the Scaled Agile Framework into their enterprise, to enhance efficiency, productivity, communication methods, and pass the exam in the very first attempt.

For organisational progression and success, rapid adaptation to the continually evolving technical and economic environment is required. With a Leading SAFe® certification, delegates will become sure to comfortably manoeuvre their way around any issues that may arise during the development or delivery of software. This training is curated by our industry experts focusing on customer-centricity, and design thinking enables the organisation to understand the problem and design the right solution. This training will provide delegates with knowledge of various new measures and grow guidance that helps the organisation determine its current state of business agility and identify tactical steps to improve economic outcomes and reach its desired future state.
