

Why Learn Advanced Certified ScrumMaster (A-CSM)?

Enhance your Scrum implementation skills to facilitate better dialogue between stakeholders.

Develop the expertise to scale Scrum and Agile and hone your coaching abilities.

Audience Profile :

- Scrum Masters
- Team Leads
- Development Managers
- Delivery Managers
- Project Managers
- Agile Coaches

Prerequisites:

- There are no prerequisites to attend the course.
- To be eligible for the A-CSM® credential, an active CSM® certification is necessary along with 12 months of Scrum Master experience (within the past five years) logged into your Scrum Alliance profile.

Course Overview:

- You're a Certified ScrumMaster® (CSM®), who's been introduced to the Scrum Values, practices, and applications.
- The next step in your Agile journey is to achieve your Advanced Certified ScrumMaster (A-CSM®) certification.
- Master the skills to facilitate better dialogues between Product Owner, development team, customers, stakeholders, and executives and respond confidently when encountering resistance to change and lack of engagement.
- This Advanced Scrum Master Certification training course explains the value of Scrum and Agile processes to the required stakeholders.
- It helps you learn how to implement the Scrum framework for Agile and Lean project management, including Agile facilitation and coaching, service delivery, and setting up and managing the Scrum lifecycle.
